

E & R

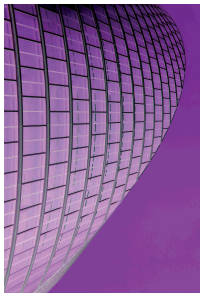

E&R Design

Ellen H. Wetterwald & Rebekah Taylor (E&R) are a London based photography team who create fresh, vibrant & cinematic images. Their aim is to inspire and bring life and colour to everyday surroundings, and their modern images reflect energy and optimism. With backgrounds in Fashion, Modelmaking and the Special Effects Industry, their focus is as much on the details, as well as the colour balance and composition of the overall picture.

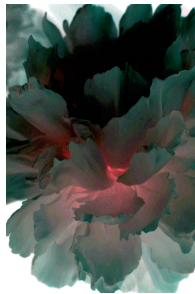

Images in the E&R collection range from colourful big city life and architecture, to detailed stills, and peaceful nature settings. Some of their photographs are digitally enhanced to bring out the most striking features, with the aim to catch the viewer's attention.
