

Imad Bechara

Imad Bechara, UAE

Imad Bechara's interest in art developed hand-in-hand with a passion for painting in particular and the creative arts in general. Imad's chosen medium is acrylic and mixed media. The style he has made his own is abstract and figurative. "Painting arouses many contradictions in me," he explains. "It gives me the perfect outlet for free expression about what inspires me – life, especially human figures, nature and various aspects that come into my mind."

His work has been exhibited at a number of important galleries in the Middle East, Gulf and Europe, and is owned by members of the Royal families of Abu Dhabi, Dubai and Bahrain. His work can also be seen in many projects including hotels, corporate offices and private residences
