

PARKart

PARKart

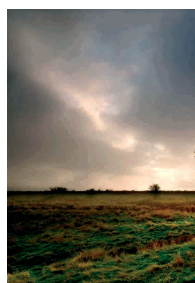

PARKart is a new collection of art brought together to complement the exciting and fast changing world of interior and furniture design. The "Installation Gallery" concept has been achieved by bringing together a unique collection of artists working in the contemporary design world of today. The installation idea is to create art for the surroundings, by working with independent artists who are ready to enhance, complement and create a complete living experience. In addition to the range available through Artcoustic, there are many more images available on the PARKart web site. PARKart work directly with the artists and are here to help if there is a more specific image you require to create your vision. If you do choose to search a more specific image, exclusivity rights will occur. PARKart will inform you if this is the case. Please contact PARKart through their website www.parkart.co.uk or tel +44 01245 493100
