HTS100

Home Theater Seating System

Introducing the new lap of luxury.

Simply...beautiful® from every angle.

We believe home theater seating should be Simply Beautiful from every angle. It is the most important part of our design process. Our Italian designed seats show the attention to detail that has made Bell'O® world famous.

Your room placement may put the back or side of the seat in a main focal point. When you compare the finely appointed, tailored look of our seats, you will find them more elegant and finished than most other chairs at any price.

We understand that beauty is more than skin deep. Sit or lie down and you will find an inviting, yet well supported seat. It rivals the look of expensive custom built seating, however Bell'O® has taken the world of home theater seating to a new level of affordability.

“*Home theater seating is not only a room décor... it is part of your lifestyle. ...Sit back and get comfortable.*”

HTS100

Features

Compact Recline

The compact recline mechanism requires only 3" (7.5cm) of space for full recline.

Head Support

The headrest has been engineered to put your eyes at an optimum viewing position regardless of the seating position.

Zero Wall® Reclining Mechanism from Leggett & Platt®

We have selected Leggett & Platt® for their world famous smooth, quiet and durable reclining mechanisms. The Zero Wall® mechanism lets you place the seats just inches from a wall. This provides endless placement opportunities within your room.

Hidden Finger Tip Recline

The recliner lever is discreetly tucked away to preserve the elegant look of the HTS100. Lightly pull the lever to recline mid-way or for full recline.

Stainless Steel Cup Holders

The cup holders are both durable and attractive. In case of a spill or condensation marks, the cup holders can be easily lifted out for cleaning.

Ergonomic Design & Supportive Cushioning

The seating and cushion support have been ergonomically designed to provide excellent support for those long movies or double features.

Elegant & Unique Seat Back Construction

The HTS100 is designed to look as good from the back as it does from all other angles, providing great looks no matter where you place your seating.

One Year In-Home Warranty

In the unlikely event that you have a problem with your seating due to manufacturer's defect, you can be assured that it will be serviced in your home with no additional costs for parts or labor. Labor and in-home service applicable only in the continental USA, Hawaii, Alaska, and Canada. See warranty for more details.

Luxurious Leather

We take our leather seriously. Each hide is hand-selected to ensure it meets our standards for excellence. The leather is supple, yet supportive and durable. Leather covers all seating and "touch" surfaces, and is available in luxurious Black or Brown leather with leather matched materials.
